

# Books for Africa

Donaldson Filtration Systems is extremely proud to have teamed up with Donaldson Company Inc for a very worthy community project. Donaldson Company Inc donated over 8, 000 books to the organization Books for Africa. These books were sourced in the USA and arrived in South Africa in November 2009.

Donaldson Filtration Systems' employees then assisted with distributing, sorting and indexing the books in both Cape Town and Johannesburg. A majority of the books in Cape Town were distributed to the Rotary Club of

Kirstenbosch. Johannesburg received delivery of over two tons of books and three schools were the beneficiaries, namely Siboniwe Primary School, Ziphakamiseni Secondary School and Mapondo Intermediate School. These schools are located approximately 65km from Pretoria in the Phola-Park Informal Settlement.

Donaldson Filtration Systems would like to thank all the volunteers from the Rotary Club, the Peace Corp and the American Embassy for their assistance in making this project such a huge success
